

SUMMARY

With 4 years and 10 months of experience as a Full-Stack Developer, I am proficient in PHP, Node.js, JavaScript, HTML, CSS, and MySQL for web development. For application development, I work with React Native and Flutter. I am adaptable and open to learning new languages and technologies that can contribute to the organization's success. I am seeking a challenging position as a Senior Developer, committed to rapidly growing my skills and refining my efficiency.

SKILLS

PHP, Javascript, Node.js, React Native, Flutter, HTML, CSS, MySQL

WORK EXPERIENCE

Senior Developer - Orisma Technology Co., Ltd. (Dec 2023 - Jul 2024)

- Built full-stack web applications using PHP, JavaScript, Node.js, HTML, and CSS, managing databases with MySQL.
- Reviewed code, provided recommendations, and mentored junior programmers.
- Designed and developed RESTful APIs integrated with Cron Jobs, improving performance.
- Created responsive and user-friendly UI designs, including designing databases.

Junior Developer - Taximail Co., Ltd. (Sep 2019 - Dec 2023)

- Developed and maintained web applications, working on both front-end and back-end using PHP, JavaScript, Node.js, HTML, and CSS, with MySQL for database management.
- Developed mobile applications using React Native and Flutter.
- Created RESTful APIs and improved performance.
- Customized and enhanced the UI to improve user-friendliness, visual appeal, and responsiveness.
- Designed and improved databases to support the development of new features.
- Designed and implemented Cron Jobs integrated with RESTful APIs to enhance the efficiency of web applications.

PROJECTS

Multi Chat Service Web Application (PHP, Node js, Javascript, HTML, CSS, MySQL)

- Developed features for managing chat admin teams, including UI design and API development.
- Designed and implemented features to integrate social chat platforms (Facebook, Line, Instagram) with the web application.
- Built webhooks to receive messages from connected social chat platforms and APIs to send text, images, videos, and files from the web application to these platforms.
- Created a feature for saving frequently used responses for chat convenience.
- Contributed in improving the efficiency of the automatic chat room distribution system to online chat admins.

Multi Chat Service Mobile Application (React Native, Node js, MySQL)

- Enhance and fix chat UI.
- Developed a feature for saving frequently used responses for easier chat management..

Real Estate Agency Internal Management Web Application (PHP, Javascript, HTML, CSS, MySQL)

- Created features for calculating sales commissions and additional bonuses for sales staff.
- Implemented a Performance Management Bonus (PMB) system to calculate bonuses based on performance, with customizable percentage levels and condition rules.
- Developed a dashboard page to display revenue and expenses, which can be exported to an XLS file.

Web Application For Franchise Product Sales System (PHP, Node js, Javascript, HTML, CSS, MySQL)

- Designed the database, backend architecture, and developed RESTful APIs from scratch.
- Developed the complete UI pages such as product display, cart management, and order tracking, with assistance from one other team member in the UI development process.
- There are 2 websites for the system.
 - A Back of House Management System designed to manage product listings, warehouse inventory, order shipments, picking and packing products, and monitoring product sales.
 - An e-commerce website designed to offer a product display interface for franchises to place orders.

Web Application For Human Resource Management System (PHP, Node js, Javascript, HTML, CSS, MySQL)

- Implemented systems for calculating employee taxes, social security, and provident fund contributions.
- Designed and built a payment system for purchasing plans and automated renewals upon expiration.

Food Ordering Mobile Application (Flutter)

- Contributed in developing the UI for adding stock and displaying sales graphs.

EDUCATION

Master's Degree - King Mongkut's Institute of Technology Ladkrabang, Computer Engineering, Grade: 4.00
2016 - 2019

Bachelor's Degree - Mae Fah Luang University, Computer Engineering, Grade: 3.58
2012 - 2016
